Nail afraid of tanning

UV nail lamps like tanning beds, as if you do not give it into his hands sunscreen ultraviolet light, then back skin is very easy black, pigmentation and even skin cancer risks appear. To address this point, YouVeeShield thermal protection nail gloves can protect the back and nail bed when doing nail polish glue. Glove covered with titanium dioxide, can block UV rays of 99.0%. Gel nail polish do next time, take it with both hands cover it.
